Business Requirements

Date:	18 March 2023
Team ID:	NM2023TMID26924
Project Name:	A Comprehensive Analysis of Financial Performance: Insights from a Leading Banks

- 1. **Identify key financial metrics:** The project should identify the key financial metrics used to measure the performance of leading banks, such as return on assets, return on equity, and efficiency ratios. These metrics should be evaluated and analyzed to provide insights into the financial performance of leading banks.
- 2. **Analyze macroeconomic factors:** The project should analyze the impact of macroeconomic factors, such as interest rates, inflation, and economic growth, on the financial performance of leading banks. This analysis should provide insights into how external factors influence the performance of banks.
- 3. **Evaluate case studies:** The project should evaluate case studies or reports on specific leading banks to gain insights into their financial performance and strategies for success. This analysis should provide practical insights that can be used by other banks to improve their financial performance.
- 4. **Identify trends and patterns:** The project should identify trends and patterns in the financial performance of leading banks. This analysis should provide insights into how the banking industry is evolving and changing over time.
- 5. **Provide actionable recommendations:** The project should provide actionable recommendations for financial institutions, policymakers, and stakeholders based on the findings of the analysis. These recommendations should be practical and feasible for implementation.
